

GAISER 4000

Cleaning and sanitizing work can be incredibly enhanced with the use of steam, which - in addition - guarantees considerable savings on the consumption of water and detergents.

GAISER 4000 is a single-phase steam generator ideal for professional use, with a robust stainless-steel body. The boiler has a capacity of 3.5 liters, which develops 8 bar of pressure thanks to a pair of heating elements of 3400 W in total. The boiler is equipped with the exclusive Non-Stop System technology, which facilitates the continuous supply of water within the same.

Our exclusive Flow-Master technology makes it very easy to manage steam and allows to decrease or increase its flow according to real needs. Gaiser 4000, moreover, is a very safe product: our Intelli-Boiler system automatically turns off the machine in case of emergency.

Thanks to our exclusive Dose-Master technology (from 1 to 32 levels), the electronic management of the "steam / detergent" mixture allows you to mix the ideal quantity of solution with steam, thus avoiding any waste. In addition, the exclusive Hydro-Jet system enhances cleaning by generating flows of wet steam, thus facilitate the rinsing of the surfaces being treated. Gaiser 4000 is a very robust steam generator that facilitates the cleaning of a wide range of surfaces and environments in an ecological way. It can be used as a sanitizer, degreaser, and deodorant on all surfaces and against the most stubborn stains. Furthermore, it allows to eliminate bacteria and molds.

TECHNICAL FEATURES

Model	GAISER 4000	Temperature Max	180 °C
Power Supply	220V-240V	Steam Production	125 g/min
Max Power	3400 W	Refill Tank	5 L
Boiler Power	3400 W	Detergent Tank	5 L
Boiler Capacity	3,5 L	Vacuum Power	-
Pressure	8 BAR	Body	STAINLESS STEEL
